

CIS 607 – Case #3

Your assignment is to write a 3-4 page paper explaining how you would conduct the investigative preview, and what you would hope to gather from the preview. Include a brief summary from the case. Your paper needs to explain the preview process in some detail and shouldn't only be a reiteration of the case. Your preview should answer who, what, when, where, why, and how. The last one, "how" is vitally important and should explain your recommended procedures in detail. Your report should also outline what you would do if evidence was found that supported the allegations against the suspect. You also need to discuss what to do if no evidence is found that supports the allegation.

Provide your answers in a Word document and title it with your name, course, and Case Study 3. Remember that your written work must follow APA or MLA formatting for the paper, citations, and any references. Make sure you are fully answering the questions using proper grammar and spelling.

Case Additional Details:

- Zane Wilkens teaches history at Fuller Middle School in West Des Moines, IA. The Principal is Samuel Brady. There is one IT person (Allen Jones) between the different schools in the district.
- Zane also coaches girls' soccer and runs their practice after school for an hour.
- There is one IT person (Allen Jones) who takes care of the different schools in the district. The servers are located in the school district headquarters building.
- In addition to his school email account, he also has a Hotmail account that he accesses from his classroom computer. From his IE7 browser history, you can also tell he uses Facebook, Craigslist, and Dropbox.
- Equipment found in the classroom includes:
 - PC – IBM Lenovo 8808 Pentium D 3.4GHz 80Gb XP Desktop Computer with 1Gb of RAM and 4 USB ports and a 10/100Mb network card.
 - Camera – Camom PowerShoot A1300 16MP Digital Camera with a 16GB SDHC card, of which 10Gb is used.
 - USB Memory Stick – 8GB SanDisk Pro Duo, of which 6GB is used.
- In reviewing the PC's hard drive, you notice that you can only "see" 60GB and you suspect that it may contain a hidden drive/partition since it has TrueCrypt installed.
- The post-it notes on his monitor contain the following:
 - Cindy: 555-2367 & Joann 555-8265
 - HM: Porsche06, CL: Ferrari08, FB: Camaro04, TC: Mustang02
- The email you found on the screen is for his school account and appears to be solely school-based communications with colleagues and parents.
