

## MBA 690 Module One Short Paper Guidelines and Rubric

It is essential to understand the development of one's own industry in context of the factors that drove change in the past. These may also be some of the same factors that will continue to drive change in the future.

**Prompt:** Based on the business plan you created in MBA 560: Marketing and Strategy, describe the impact of those factors of change identified in your discussion posting this week. Identify key obstacles/opportunities that necessitated the changes and the nature of changes made in the related industry. The assessment should include a section on both the enabling factors and the inhibiting factors that drove the change. The [force field analysis](#) technique can be used to help illustrate this concept. The related article and video in the Module One resources can help you with this concept.

This assignment will help you complete Milestone One, which is due in Module Three.

Specifically, the following **critical elements** must be addressed:

- Describe the **impact of change** in an industry of your choice.
- Identify **key obstacles/opportunities** that necessitated the changes and the nature of changes made in the related industry.
- Assess the **enabling factors** and the **inhibiting factors** that drove the change.

**Guidelines for Submission:** This short paper should adhere to the following formatting requirements: It is submitted as a Word document, 1 to 2 pages (not including title and reference pages), double-spaced, using 12-point Times New Roman font and one-inch margins. All APA citations should reference the course text and at least two additional resources.

**Instructor Feedback:** This activity uses an integrated rubric in Blackboard. Students can view instructor feedback in the Grade Center. For more information, review [these instructions](#).
