

Marriage in the US

Thesis statement: The definition of marriage in the US should be based entirely on the bond between people rather than any gender references. This will expand legal protections and access to rights for same-sex couples.

Body paragraph 1: To clearly define what a marriage is, particularly in the United States, it is essential to bear in mind that people get into marriages due to various motives. Most importantly, it is vital to note the fact that, universally, marriage is defined as a union between people that are culturally recognized. The two people that come into union to form a marriage are often referred to as spouses. The two people who are married usually have various responsibilities with regards to their marriage. Therefore, it is essential to note that there is a distinction between viewpoints that can be used concerning the definition of marriage. Married people have various rights and obligations to the marriage. As such, the rights and obligations of the spouses to the marriage tend to act as the building blocks of marriage.

Topic phrase: To clearly define what a marriage is, particularly in the United States, it is essential to bear in mind that people get into marriages due to various motives. Most importantly, it is vital to note the fact that, universally, marriage is defined as a union between people that are culturally recognized

"Gender refers to the socially accepted characteristics that define either men or women; some of the traits include, norms and roles (Galdi, 2014)."

"A marriage is defined as a culturally recognized relationship between people who share various roles and responsibilities (Cheung, 2010)."

"People who are part of marriage tend to have marital rights regardless of their gender (Carr, 2014)."

Phrase 1: there are four socially recognized types of marriage. They include customary marriage, traditional marriage, religious weddings, and civil weddings.

Phrase 2: the spouses of marriage have duties and responsibilities to play in the marriage.

Phrase 3: same-sex marriage is the marriage of two people that are of the same gender.

Conclusion: Summarizes the main points
