

Family Assessment Part II

Refer back to the interview and evaluation you conducted in the Topic 2 Family Health Assessment assignment. Identify the social determinates of health (SDOH) contributing to the family's health status. In a 750-1,000 word paper, create a plan of action to incorporate health promotion strategies for this family. Include the following:

1. Describe the SDOH that affects the family health status. What is the impact of these SDOH on the family? Discuss why these factors are prevalent for this family.
2. Based on the information gathered through the family health assessment, recommend age-appropriate screenings for each family member. Provide support and rationale for your suggestions.
3. Choose a health model to assist in creating a plan of action. Describe the model selected. Discuss the reasons why this health model is the best choice for this family. Provide a rationale for your reasoning.
4. Using the model, outline the steps for family-centered health promotion. Include strategies for communication.

Cite at least three peer-reviewed or scholarly sources to complete this assignment. Sources should be published within the last 5 years and appropriate for the assignment criteria.

Prepare this assignment according to the guidelines found in the APA Style Guide, located in the Student Success Center. An abstract is not required.

This assignment uses a rubric. Please review the rubric prior to beginning the assignment to become familiar with the expectations for successful completion.

You are required to submit this assignment to LopesWrite. Refer to the [LopesWrite Technical Support articles](#) for assistance.
